The Model Engineering Section of the Internet Craftsmanship Museum SECTION 1 INTERNAL COMBUSTION ENGINES. Ron Colonna's 1/4 scale 270 Offenhauser 4-cylinder engine takes model engineering to the highest level because Ron has not only built the engine, he has also documented it in a book with plans so that others can benefit from his experience and built it too.

Model Engineers—Internal Combustion Engines
Most model engine owners are using Coleman Camp fuel with good results. My Plunket Jr. engine (not a hit-n-miss) has higher compression than many model engines and I noticed that it made some strange knocking sounds that were not mechanical, so I decided it must be detonation.

ModelEngineCastings.Com - Home / Barstock Engines
David Kerzel has free plans for this beautiful hit & miss engine he designed. It may look like it’s made from castings but it’s actually made from bar stock. The cylinder has a .75-inch bore and the flywheels are 3.5-inch in diameter. The plans also come with some well-written and very helpful construction notes.

hit miss engine model kit products for sale | eBay
However, the engine—first of his “Atom” series—was a success and the following years saw numerous articles appearing in the ME relating to model petrol engines, carburation, lubrication, ignition systems etc. His original Atom was followed by the Atom Mk II, Mk III, and ultimately the Atom Minor.
